DS 294 (JAN) 3:0 Data Analysis and Visualization
Assignment–1 [1]

`Due date:  April 15, 2021 (Thursday); 3:30 P.M.`

On your computer
(1). Install one open source visualization program (out of three tiers discussed in the class) and give a brief description of the program and salient features (total text should not exceed 2 pages). Include snapshots to show different capabilities of the visualizer with a test data set. [5 Points]
